

MARCUS WOOKEY*Art Director / Production Designer*

Marcus's tangible skills as a troubleshooting art director on such films as 'Sexy Beast', the recent 'DXM' and 'Last Panthers', and the forthcoming 'Swallows and Amazons' have served to back up his credentials as a modern and contemporary art director and designer. In demand for commercials as well as feature films, he is known for being hands-on, never far from where the action is, and supporting his director and crew. 'Last Panthers' line producer Mike Treen says this of him: 'Marcus achieved a remarkable consistency of design across a challenging production that had previously shot in France and Serbia. Such results are worthy of the highest praise and commendation. I have no hesitation in recommending him'.

Warp Films Head of Production Barry Ryan adds: "Marcus has proven himself to be an intelligent, motivated and friendly individual. He approaches his work with confidence and insight and has an innate sympathy for the creative process. I look forward to the opportunity of working with him again."

He is based in London and available for work worldwide.
