DESI AGUILAR

Costume Designer

IATSE Local 892

Desi's inspiration for combining bold style with quirky costume ensembles came at a young age after being inspired by Vogue fashion spreads and The Mighty Ducks. Shortly after graduating, she was given the opportunity to set costume on Ava DuVernay's award-winning film, "Middle of Nowhere." Since then, she has worked with some A-list talent including Daniel Radcliffe, AJ McClean, Julia Roberts, and Channing Tatum, while also designing on numerous features, commercials, and web series. Based in Los Angeles, Desi will go wherever the work takes her.
