*Agnieszka was great to work with. She has a keen eye for performance and story and works tirelessly to hone and sculpt her edit. She is passionate about what she does and the material she works on and refreshingly, she is very protective of both the actors and the script. This may seem like a minor point, but editors so often start with what doesn't work rather than what does and use that as the starting point. It makes for a positive and ultimately very constructive editorial process. Fully recommend her!*

**Barnaby Southcombe - Director**
