

DOMINIC ROBERTS*Production Designer*

With a BAFTA nomination for his work on 'Merlin' and an Art Directors' Guild award for his work on 'The Favourite', Dominic's credits include everything from primetime drama and fantasy to period and sitcoms. Whether it's been his work on 'Lucky Man', the Chinese Endemol-Shine re-imagining of the ratings-buster show 'Humans', or the uber-glossy world of the HBO/BBC's 'Industry', Dominic has proved over and over again that he has the vision as well as the capability to make every show stand out.
