

# HENRY SPICER

## Editor

Henry built his career from the ground up, starting as an in-house edit assistant at Suite TV in London. He gained hands-on experience on several well-known comedy TV series and developed a strong foundation in editing. He has recently gone freelance and has already picked up his first broadcast credits with Channel 4. Building ongoing relationships with producers and directors, Henry is shaping a portfolio in the drama-doc space - a style that's relevant in today's landscape of character-led factual storytelling.

Based in London and happy to travel, Henry works confidently on-site or remotely and is keen to take on new challenges across film and television.
