

KOLE ONIS

1st Assistant Director

Kole's background as a First AD encompasses a wider variety of genres than many other ADs working today. Whether it's documentary, action-adventure, comedy, or highly personal drama, he takes it all in his stride, and it's his calm demeanour and capability borne out of long experience that endears him to cast and Production alike. Based in London, he'll work wherever he's asked to.
